## Introduction:

AmwemTech Solution is a modern cyber café and ICT service provider based in Kitengela. We focus on delivering accessible, affordable, and high-quality digital services to youths, students, and working professionals.

## Problem Statement:

Many residents in Kitengela struggle to access affordable and efficient digital services. Job seekers, students, and small business owners often lack a reliable place to print, scan, browse, apply online, or receive basic ICT support.

## Solution:

AmwemTech will bridge this gap by offering professional digital services including internet access, printing, document preparation, eCitizen/KRA support, and digital literacy training.

## Target Customers:

- Youth and job seekers
- Students
- Small business owners

## **AmwemTech Solution - Grant Proposal**

- Working professionals

### Funding Request:

We are seeking KES 300,000 to support:

- Equipment (computers, printer/scanner, internet setup)
- Rent and branding
- Marketing and community outreach

### Impact:

AmwemTech will create local employment, support youth empowerment, and bridge the digital divide in Kitengela.

Thank you for your support and consideration.
